

# Calculate Your Farm Emissions Workshop

Wimmera CMA

24 Darlot St (entrance on Glead St)

Landcare  
Victoria Inc.

Join us for a practical workshop designed for farmers to measure and manage on-farm carbon emissions.

## Why should farmers attend?

This small-group, practical session is designed to help you understand your farm's emissions and identify opportunities to lower emissions without compromising productivity. You'll work through entering your own data into an emissions calculator, with guidance and support every step of the way.

## What to expect

- Pre-work guidance and a worksheet to help you collate the right farm data.
- Time to enter your own numbers, with assistance if needed.
- A baseline measurement of your farms total carbon emissions and emission intensity figures.
- Explore opportunities to avoid/reduce on-farm emissions or sequester carbon.

## What you'll need:

- A laptop (let us know if you don't have one)
- Your farm data

## Calculate your farm emissions workshop

**Date:** Tuesday 24<sup>th</sup> February 2026

**Time:** 10.00am – 2.00pm

**Location:** Wimmera CMA office, 24 Darlot St, entrance on Glead St

**Cost:** FREE

**RSVP:** Tuesday 10<sup>th</sup> February 2026

**Morning tea and lunch provided**
